

Why Choose RCP Home Program?

RCP Home staff combines the latest advancements in home therapy with a compassionate, caring approach to dialysis. We believe that healing can be best accomplished in an environment where the patient feels safe and comfortable and where patient's needs come first. For appropriate patients, Dialysis at Home is the optimal solution. Our staff is fully trained and experienced in all of the latest home dialysis techniques. We are dedicated to creating an atmosphere conducive to the unique needs of each patient. RCP Home Staff will work closely with your Nephrologist to customize your dialysis treatment and put it in place. We use State-of-the-Art equipment and provide support 24 hours a day.

Advantages of Home Dialysis

Taking Control of your Life

RCP Home Program, Inc

"THE HOME DIAALYSIS SPECIALISTS"

Home Dialysis provides the freedom to take greater control of your life.

Patient Home Treatment Options

Peritoneal Dialysis

Peritoneal dialysis is performed daily via a small flexible catheter placed in either the abdomen or pre-sternal by a surgeon.

- CAPD - Continuous Ambulatory Peritoneal Dialysis 4 to 6 exchanges a day 7 days a week
- APD - Automated Peritoneal Dialysis using a Cycler at night while you sleep 7 nights a week.

Benefits

- Dialysis daily closely mimics your normal kidney function
- Flexible Schedule
- Easy Portability
- No home modification necessary
- Less dietary restrictions
- Treatment while you sleep

NxStage Hemodialysis

- Daily dialysis 2 to 3 hours treatments, 5 to 6 days a week
- Professional training by a Licensed Nurse and Technical staff
- Flexible Schedule
- No major plumbing or electrical changes to your home
- Technical and Nursing personnel ON CALL 24 hours

Benefits

- Designed to make therapy simple and practical
- Easy to use
- Small and Portable
- No plumbing modifications
- Single use supplies
- Prepackaged sterile dialysate available for travel

Staff Assisted Hemodialysis

- Dialysis with a skilled nursing professional at your home
- Standard 3 to 5 hours treatments, 3 times a week

Benefits

- Assigned Nursing Supervisor
- Flexible Schedule
- 3 Days a Week
- Single use supplies
- Not tied to a facility schedule
- Active participation in your own treatment plan

“Renal CarePartners home program offers me flexibility and choices that provides me with the freedom to live my life, my way.”
